

YOU SAVE LIVES.

INTRODUCING A BENEFIT THAT MIGHT SAVE YOURS.

LIFE SCAN EARLY DETECTION MEDICAL SCREENINGS CAN FIND SERIOUS HEALTH ISSUES BEFORE THEY HAPPEN.

You are well-prepared to fight fires. But what about the hidden dangers you can't see? Things like heart disease and cancer. The IAFF Health & Wellness Trust (IAFF HWT) is proud to partner with Life Scan Wellness Centers to bring our Active Trust members an early detection medical screening program that can detect major diseases before symptoms even arise.

As an IAFF HWT Participating Fire Department, you have the option to participate in this comprehensive program. Here are a few important details:

- Fire Department must enter into a separate agreement with Life Scan Wellness Centers, including scheduling and “no-show” provisions.
- **IAFF HWT will cover the total cost** of the NFPA 1582 and NFPA 1583 physical for eligible fire department employees, as determined by your agreement with Life Scan Wellness Centers.
- As part of the separate agreement with Life Scan Wellness Centers, additional services above and beyond those included in the NFPA 1582 and NFPA 1583 are available. They can be billed directly to the fire department upon request.
